Slimming Treatment Test-drive: Accent Ultra Body Slimming by ClearSK

Accent Ultra Body Slimming at ClearSK Orchard Aesthetic Centre, \$1,200 per session or \$4,800 for 6 sessions. From now till end of July 2010, ClearSK is offering a promotional rate of \$2,400 for 6 sessions.

Accent Ultra Body Slimming is ClearSK's latest FDA-approved treatment. Designed to be a painless and non-invasive alternative to liposuction, this treatment is best for those with soft fats. According to the therapist, soft fats, which are more commonly found in under arms and inner thighs, are easier to burn than hard fats, which are more commonly found in calves. Being bottom-heavy, I requested for the treatment to focus on my thighs. The 30-minute treatment consists of 2 procedures: Accent Ultra and Accent Radio Frequency. Accent Ultra breaks down fats and cellulite through the Ultrasounds Resonance System technology, which emits extremely high pressure to destroy fat cells. The fat content of these cells are fragmented and naturally eliminated through the urinary and lymphatic systems. The second part of the treatment, Accent Radio Frequency, releases deep heat to improve blood and lymphatic circulation and drainage. The therapist advised me to drink a glass of water immediately after the treatment to stimulate the lymphatic drainage process.

ClearSK Orchard Aesthetic Centre is at #03-16/17/18 Orchard Central (next to Somerset MRT). Tel: 6634 6040

Rating: 3/5

“ The heat peaked at 42 degree Celsius at certain parts of the treatment, but it was tolerable for me. Basically, the treatment felt like 30 minutes of gentle massaging on my thighs. Even though the before and after pictures don't show much difference, the results showed a loss of about 2.5cm on each thigh. According to the therapist, the results would be more visible 3 days after the treatment. Fast forward 3 days later, my pants did feel slightly looser and my thighs looked smoother. ”
